

2018-2021 Instructional Technology Plan - Annually - 2018

I. District LEA Information

Section I - District LEA Information

1. **What is the name of the district administrator responsible for entering the Instructional Technology Plan data?**

Lisa Brower

2. **What is the title of the district administrator responsible for entering the Instructional Technology Plan data?**

Other (please identify in Question 2a, below)

2a. **If 'Other' was selected in Question 2 above, please identify the title.**

Coordinator of Network and Technology Services

For help with completing the plan, please visit 2018-2021 ITP Resources for Districts, contact your district's RIC, or email edtech@nysed.gov.

2018-2021 Instructional Technology Plan - Annually - 2018

II. Strategic Technology Planning

Section II - Strategic Technology Planning

1. What is the overall district mission?

The mission of the North Rose-Wolcott Central School District is to prepare each student for a successful future.

2. What is the vision statement that guides instructional technology use in the district?

District-wide advancement of technology is imperative to North Rose-Wolcott (NRW) Central School District's student, parents, community, and staff. Technology has become a necessary and effective tool for instruction, staff effectiveness, student achievement, parent involvement, community outreach, and the ability of our graduates to compete in the global marketplace. The NRW Technology Committee completed the original version of the Technology Plan in 2011 to serve as a guide for the district. Each version of the plan focuses on the strategies and work to be accomplished over the next twelve to eighteen months, with some items spanning longer. The plan is also designed to keep pace with rapidly changing technology and provide framework for planning, implementing, evaluating, and re-planning our technology-related work.

3. List three goals that will drive the attainment of the vision.

	List Goals
Goal 1	Develop and transform learning spaces and create virtual spaces to allow for the effective use of 21st century skills and tools to improve technology proficiency and prepare all NRW students to be successful members of a global learning community. Attaining a seamless integration of Technology in the classroom.
Goal 2	Achieve educational and organizational transformation that improves sustainable educational outcomes through strengthened partnerships between schools and central departments that harness the power of individual expertise throughout the organization creating individualized learning opportunities for all.
Goal 3	Ensure the effective use of technology to facilitate communication between staff, community, and students. Ensure existing systems deliver efficient service and useful information to support end-to-end business processes and ensure there is technology equity for students and staff.

4. Do you want to list a fourth goal that will drive attainment of the vision?

No

5. Do you want to list a fifth goal that will drive attainment of the vision?

No

6. Summarize the planning process used to develop answers to the Instructional Technology Plan questions and/or your district comprehensive instructional technology plan. Please include the stakeholder groups participating and the outcomes of the instructional technology plan development meetings.

District Level:

The Technology Plan was created through collaboration with a team comprised of Administrators, Instructional Staff and members of the Technology team. Collaboration took place periodically throughout the year with attention given to facilitating a plan that aligned with the districts strategic planning process. Attention was given to district initiatives, programs, and financial plans.

School Level:

School level Technology Committee meetings were facilitated to collaborate, review, and align to specific instructional needs. The District Instructional Technologist along with Instructional Staff provided additional input to align with district goals.

Technical Level:

The Technology Plan was reviewed by district IT personnel, lead technicians from Edutech, District Administrators, Architects and Engineers throughout the process. Attention was given to the sustainability, longevity, and health of the network. Recommendations were given to support these areas.

2018-2021 Instructional Technology Plan - Annually - 2018**II. Strategic Technology Planning**

7. Please describe the professional development plan for building the capacity of educators and administrators in the attainment of the instructional technology vision.

Teachers Matter:

- Quality instruction has the largest influence on student achievement.
- It is the obligation of the school community to create safe and caring learning environments and engage students in relevant, reachable, quality work experiences that challenge them to learn more, at higher levels with a deeper understanding (rigor).
- The work of educators is demanding and complex. Educators must have an adaptive style in order to meet the variety of challenges and needs of NRW students.
- Teachers and Administrators are not expected to do this work in isolation. Both need the support of collegial learning teams that problem solve and learn together.

Leaders Matter:

- Their clarity, their intentionality, what they believe, think, and communicate make a significant difference in increasing student achievement.
- They are primary architects of embedded professional development through the development of the School Improvement Plan (SIP).
- The most powerful professional development is teacher-to-teacher learning that happens as close to the work with students in classrooms as possible.
- Coaching and well-functioning collaborative teams are powerful tools to accomplish ongoing, meaningful professional learning.
- Measuring and assessing professional learning is essential to it's design, delivery, and ongoing adjustment, in order to be most responsive to staff and student learning.
- Budgeting at both the District and Building level is required to create and sustain ongoing, powerful professional development. A major initiative in the NRW School District for 2018-2019 and beyond is Personalized Learning. The goal of which si to provide individualized, targeted instruction to students to best meet their needs and increase student achievement results. Part of PL includes integration of digital content. The District will be providing training around use of specific devises such as laptops, Chromebooks, and iPads, as well as the following programs: Google Classroom, Renaissance Learning, LinkIt, IXL, and Classlink.

Training is also provided during Superintendent's Conference Days, faculty meetings, and paid experiences outside of the school day. The district Instructional Technologist also provides on-site 1:1 assistance to teachers in the classroom in addition to facilitating trainings.

8. How will the instructional technology goals be measured and evaluated during and after implementation? Be sure to include any tools or metrics that are part of this evaluation process.

The goals and objectives of NRW will be evaluated through the use of technology assessments throughout the year. This assessments will be ongoing and will include the following but not limited to:

Web-Based Applications and Assessments

Self-Assessments through the use of Technology

Digital Tools

Computer Based Testing

These tools and programs will be used to collect the following:

1. Which objectives have been met?
2. Have the attainment of the curriculum standards for all student in areas of concern been met?
3. Which objectives that have not been met and are they given highest priority?
4. How can these objectives be attained?
5. With the current information, what changes in objectives, priorities, and implementation of strategies will be required?

For help with completing the plan, please visit 2018-2021 ITP Resources for Districts, contact your district's RIC, or email edtech@nysed.gov.

2018-2021 Instructional Technology Plan - Annually - 2018

III. Action Plan - Goal 1

Section III - Action Plan

Overview: This section requires specific action steps that will be taken in order to achieve each of the goals presented in Section II of the plan. Each goal will have its own page in the plan. For this page, copy Goal #1, which you listed in Section II, Question 3, and respond to all questions below.

1. Goal #1

Develop and transform learning spaces and create virtual spaces to allow for the effective use of 21st century skills and tools to improve technology proficiency and prepare all NRW students to be successful members of a global learning community. Attaining a seamless integration of Technology in the classroom.

2. Select the NYSED goal that best aligns with this district goal.

- 1. Develop a strategic vision and goals to support student achievement and engagement through the seamless integration of technology into teaching and learning

3. Target Student Population(s). Check all that apply.

- All students
- Pre-K-2
- Grades 3-5/6
- Middle School
- High School
- Students with Disabilities
- ELL/MLLs
- Migrant students
- Homeless students
- Economically disadvantaged students
- Students between the ages of 18-21
- Students who are targeted for dropout prevention or credit recovery programs
- Other (please identify in Question 3a, below)

4. List the action steps that correspond to Goal #1 from your answer to Question 1, above.

	Action Step - Select one category.	Action Step - Description	Responsible Stakeholder. Select one.	If you selected 'Other' Responsible Stakeholder in the column to the left, please identify here. Otherwise, please write "N/A."	Anticipated month of completion	Anticipated year of completion	Anticipated cost
Action Step 1	Budgeting	Provide for proper funding for creating space and infrastructure.	Business Official	N/A	Sept (09)	2020	1,500,000
Action Step 2	Collaboration	Collaborate with appropriate personnel such as Architect, Engineers, IT team, District Administrators.	Business Official	N/A	Sept (09)	2020	N/A
Action Step 3	Infrastructure	Provide infrastructure for network and technology that will be utilized for twenty first century skills and help improve	Director of	N/A	Sept (09)	2020	N/A

2018-2021 Instructional Technology Plan - Annually - 2018

III. Action Plan - Goal 2

Section III - Action Plan

Copy Goal #2, which you listed in Section II, Question 3, and respond to all questions below.

1. Goal #2

Achieve educational and organizational transformation that improves sustainable educational outcomes through strengthened partnerships between schools and central departments that harness the power of individual expertise throughout the organization creating individualized learning opportunities for all.

2. Select the NYSED goal that best aligns with this district goal.

2. Provide technology-enhanced, culturally- and linguistically-responsive learning environments to support improved teaching and learning

3. Target Student Population(s)

- | | |
|---|---|
| <input checked="" type="checkbox"/> All students

2018-2021 Instructional Technology Plan - Annually - 2018

IV. NYSED Initiatives Alignment

Section IV - NYSED Initiatives Alignment

- 1. Explain how the district use of instructional technology will serve as a part of comprehensive and sustained effort to support rigorous academic standards attainment and performance improvement for students.**

Technology serves as a tool for students of all abilities. Personalized learning will allow students access to instruction at their level and provides different opportunities for students to demonstrate their learning. It allows for the teacher to be the facilitator. Through the use of Chromebooks, interactive boards and digital tools students will have opportunities to show their understanding and mastery of a subject in different ways which will increase student achievement.

- 2. Students with disabilities may be served through the use of instructional technology as well as assistive technology devices and services to ensure access to and participation in the general curriculum. Describe how instruction is differentiated using technology to support the individualized learning needs of this student group.**

Students with disabilities in the district are regularly provided with augmentative communication devices, access to desktop computers, as well as access to tablets such as Chromebooks. The goal with the touch screens would be to make learning more active for students; to get them up and moving and also interacting with one another. Additionally, we know that students need a lot of visual support and context to be built in order for them to access the general curriculum so the interactive board supports this. The personalized learning initiative calls for the incorporation of more digital content this allows for students working at their own pace and the teacher facilitating.

- 3. How does the district utilize technology to address the needs of Students with Disabilities to ensure equitable access to instruction, materials, and assessments? Check all that apply.**

- Class lesson plans, materials, and assignment instructions are available to students and families for 'anytime, anywhere' access (such as through class website or learning management system).
- Direct instruction is recorded and provided for students to access asynchronously (such as through a learning management system or private online video channel).
- Technology is used to provide additional ways to access key content, such as providing videos or other visuals to supplement verbal or written instruction or content.
- Text to speech and/or speech to text software is utilized to provide increased support for comprehension of written or verbal language.
- Assistive technology is utilized.
- Technology is used to increase options for students to demonstrate knowledge and skill.
- Learning games and other interactive software are used to supplement instruction.
- Other (please identify in Question 3a, below)

- 4. Please select the professional development that will be offered to teachers of Students with Disabilities that will enable them to differentiate learning and to increase their student language and content learning with the use of technology. Check all that apply.**

IV. NYSED Initiatives Alignment

5. How does the district utilize technology to address the needs of English Language Learners/Multilingual Learners to ensure equitable access to instruction, materials, and assessments? Check all that apply.

- Class lesson plans, materials, and assignment instructions are available to students and families for 'anytime, anywhere' access (such as through class website or learning management system)
- Direct instruction is recorded and provided for students to access asynchronously (such as through a learning management system or private online video channel).
- Technology is used to provide additional ways to access key content, such as providing videos or other visuals to supplement verbal or written instruction or content.
- Text to speech and/or speech to text software is utilized to provide increased support for comprehension of written or verbal language.
- Home language dictionaries and translation programs are provided through technology.
- Hardware that supports ELL/MLL student learning, such as home-language keyboards, translation pens, and/or interactive whiteboards, is utilized.
- Technology is used to increase options for students to demonstrate knowledge and skill, such as through the creation of a product or recording of an oral response.
- Learning games and other interactive software are used to supplement instruction.
- Other (please identify, in Question 5a, below)

6. The district's instructional technology plan addresses the needs of English Language Learners/Multilingual learners to ensure equitable access to instruction, materials, and assessments in multiple languages.

Yes

6a. If Yes, check one.

In the 5 most spoken languages in the district

6b. If 'Other' was selected in 6a, above, please explain here.

(No Response)

7. Please select the professional development that will be offered to teachers of English language learners/multilingual learners that will enable them to differentiate learning and to increase their student language and content learning with the use of technology. Check all that apply.

2018-2021 Instructional Technology Plan - Annually - 2018IV. NYSED Initiatives Alignment

8. How does the district use instructional technology to facilitate culturally-responsive instruction and learning environments?

- The district uses instructional technology to strengthen relationships and connections with families to assist in building a culturally responsive learning environment to enhance student learning.
- The district uses instructional technology to facilitate classroom projects that involve the community.
- The district uses instructional technology to develop and organize coherent and relevant units, lessons, and learning tasks that build upon students' cultural backgrounds and experiences.
- The district uses instructional technology to assist in varying teaching approaches to accommodate diverse learning styles and language proficiencies.
- The district uses instructional technology to enable students to communicate and collaborate with students in different schools or districts in New York State, the United States, or with different countries.
- The district uses instructional technology to facilitate collaborative classroom projects among heterogeneous student groups.
- The district does not use instructional technology to facilitate culturally responsive instruction.
- Other (please identify in Question 8a, below)

For help with completing the plan, please visit 2018-2021 ITP Resources for Districts, contact your district's RIC, or email edtech@nysed.gov.
