Assistant Superintendent
for Instruction and School Improvement

September 3, 2021

Good afternoon,

Yesterday afternoon, the New York State Department of Health released new regulations that K-12 schools must adhere to. Please visit the below link to view the newest regulations that schools must follow:

<https://docs.google.com/document/d/1cxRwd8jzRt6kJdrt13ztG2IDx7GT3pdYR3x4rqf07Tw/edit?usp=sharing>

This determination requires that all staff in K-12 schools be tested for COVID-19 on a weekly basis if they are not fully vaccinated. Additionally, the determination requires schools to offer screening testing for unvaccinated students in areas of moderate, substantial or high transmission as determined by the Centers for Disease Control (CDC). Districts must obtain parent or guardian consent in order to perform these tests. ***Please note that testing is not a requirement for students to attend school, with the exception of those who have symptoms of COVID-19.***

Parents and guardians may request that the District administer a screening test to their child. Permission must be provided to the District for this to be completed. The District is required to report the results of any screening tests to the state.

The health and safety of our NRW community is our top priority. Thank you for your cooperation.

Respectfully,

Michael Pullen
Superintendent of Schools
