Assistant Superintendent
for Instruction and School Improvement

November 12, 2020

NRW community,

Yesterday evening, we were informed that a staff member at North Rose-Wolcott Elementary School has tested positive for COVID-19. We continue to work with the Wayne County Department of Health (DOH) to ensure we take all necessary steps to support the health and safety of our school community.

After consulting with the DOH, we will continue with instruction at the elementary school under the hybrid model while continuing to practice social distancing, increased cleaning and disinfecting, and other health and safety measures.

Through the process of contact tracing, the DOH will direct close contacts to quarantine if necessary. The DOH will directly contact any families or staff if additional action is required. If you have not been contacted by the DOH, no additional actions are required.

We will continue to monitor the situation in consultation with the health department and will communicate with you if further action is required on the part of our district.

As a reminder, please monitor for signs and symptoms of COVID-19 and call your regular health care provider if you develop symptoms. For a complete list of symptoms, visit the CDC website at www.cdc.gov/coronavirus. Symptoms usually appear within 2-14 days from the last day of exposure. Please continue to practice good hand hygiene, wear face coverings in public, maintain a 6-foot distance from others, and avoid large gatherings.

We continue to work with the DOH to ensure the safety of our students, staff and families during this time. The health and wellness of our NRW community is our primary concern. If you have any additional questions or concerns, please contact your medical provider or the Wayne County Department of Health. Thank you for your understanding and cooperation.

Respectfully,

Michael Pullen
Superintendent of Schools
